MATHEMATICS 2020
KEY AND MARK SCHEME

1. (a) (i) Diagram of Figure 5

} AT (Attempt made to add 1 button to each side of Figure 4/visually correct)

(ii) Figure shown:

- Figure 8

} K (CAO)

(iii) Number of buttons in Figure 10

$$\begin{aligned} &= 3n - 2 \\ &= 3(10) - 2 \\ &= 28 \end{aligned} \quad \left. \vphantom{\begin{aligned} &= 3n - 2 \\ &= 3(10) - 2 \\ &= 28 \end{aligned}} \right\} R_1 \text{ (extending/applying the rule of the pattern/CAO)}$$

$\therefore$ Figure 10 has 28 buttons

(b) No. of marbles used:

$$\text{Fraction of marbles used} = \frac{2}{3}$$

$$\text{So, fraction left} = 1 - \frac{2}{3} = \frac{1}{3}$$

$$\text{Therefore, 14 marbles represent } \frac{1}{3} \text{ of the total marbles} \quad \left. \vphantom{\text{Therefore, 14 marbles represent } \frac{1}{3} \text{ of the total marbles}} \right\} R_1 - \text{showing that } \frac{1}{3} = 14 \text{ marbles}$$

Therefore, marbles used to make design

$$= 14 \times 2 = 28 \quad \left. \vphantom{= 14 \times 2 = 28} \right\} \text{AT (multiplying by 2/CAO)}$$

3. (a) (i) Perimeter of rectangle:

$$\begin{aligned}
 &= 2' \text{ (Perimeter of the D)} \\
 &= 2' (7 + 7 + 8)\text{cm} \\
 &= 2' 22 \text{ cm} \\
 &= 44 \text{ cm}
 \end{aligned}
 \left. \begin{array}{l} \\ \\ \\ \end{array} \right\} \begin{array}{l} \mathbf{R_1 \text{ (multiplying perimeter of} \\ \text{triangle by 2)} \\ \\ \mathbf{K_1 \text{ (CAO)}} \end{array}$$

(ii) Length of rectangle

$$\begin{aligned}
 &\text{Perimeter} = 44 \text{ cm} \\
 &\backslash 2(l + 9) = 44 \\
 &l + 9 = 22 \\
 &l = 22 - 9 \\
 &l = 13 \text{ cm}
 \end{aligned}
 \left. \begin{array}{l} \\ \\ \\ \\ \end{array} \right\} \mathbf{AT_1 \text{ (solving for l)}}$$

(b) (i) No. of green marbles

$$\begin{aligned}
 &= 50 - \frac{25}{2} - \frac{15}{2} \\
 &= 50 - (25 + 15) \\
 &= 10 \text{ marbles}
 \end{aligned}
 \left. \begin{array}{l} \\ \\ \end{array} \right\} \mathbf{R_1 \text{ (correct computation)}}$$

(ii) Ratio:

$$\begin{aligned}
 &\text{Red : blue} = 25 : 15 \\
 &= 5 : 3
 \end{aligned}
 \left. \begin{array}{l} \\ \end{array} \right\} \mathbf{AT_1 \text{ (simplified ratio)}}$$
